Activities are tailored for children ages 3 to 6 and ages 6 to 9. We take care of giving your child a personal and warm relationship reaching out every child.

Meals served to children are cooked in my home while maintaining hygiene, freshness and diversity. In addition, at four a gutter is served to the children.

צהרונקי

The afternoon kindergarten is for the children ages 3 to 6, I take care of the children personally and we help to facilitate a pleasant transition to their afternoon.

The children are seated together by age groups for lunch. We maintain a healthy eating habits around the table: proper seating, hygiene and exposure to a wide variety of tastes. We have very positive interactions using the uniqueness of

מועדונית

The after school club is for school children 6 to 9, and the club's activities take place in the morning kindergarden structure. At the end of the school day, we welcome the children to a joint meal with the younger children. At the end of the meal the children go to the club and there is organised a homework session for those in need and various other activities. The atmosphere in the club is very

קייטנות

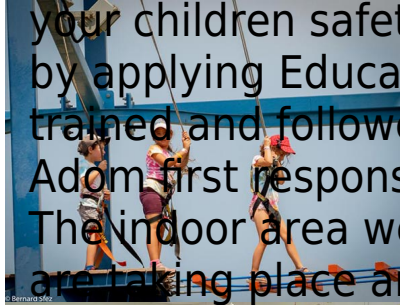

The holidays camps are designed for the age groups from 3 to 9. They are held in the afternoon and morning kindergarden structures and in the available and safe areas for children activities in Avtalyon. Our holidays camps are prepared at our best with heavy thinking and investment to plan and enjoy special moments with the kids. We make sure to combine creative activities,

the multi-age configuration in which we empower and strengthen corporation and responsibility towards others. The atmosphere is family-friendly and cohesive, it is pleasant for everyone to spend time together.

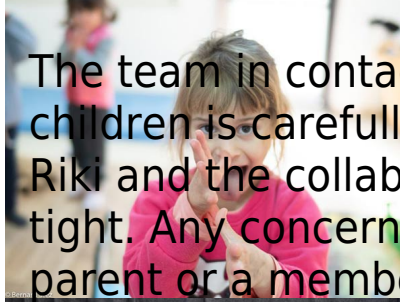

social and the children enjoy the activities that involve the younger kids in creating games or putting on joint shows.

experiential activities in the field (sport and nature activities), baking and cooking, social activities and relaxing sessions according to hours. Meals during the holidays camps are also varied according to the needs and desires of the children. It is important for me to note that the principle of holidays camps will only be met if the educational frameworks (school / kindergarten of the holidays) are achieved and for this purpose we work in collaboration with the community's education committee to meet the parents expectation under the existing conditions.

בטיחות

איכות

With a long experience in taking care of children indoor and outdoor we established strict guidelines your children safeties. Our team, by applying Educational Ministry, is trained and followed Magen David Adom first response full course. The indoor area were the activities are taking place are check regularly as well as the outdoor playground is scanned prior going out. Nevertheless we are working in cooperation with Avtalyon village and the Migav regional council security department that conduct and maintain part of the building of the Tsaharon.

The team in contact with the children is carefully selected by Riki and the collaboration is very tight. Any concern raised by a parent or a member of the team is discussed and if needed, external consulting take place. Regularly toys and the furnitures are replaced and inspected and the rooms are deeply cleaned everyday. The food provided are cooked in house with product of quality and are prepared the same

day.

מיסיון

I have been working in kids and children education for years always on the fields and my long experience proved to be a winning card. The Tsaharoniki was established in 2012 after a complete new proposal to fulfil the community and parents needs as previous solutions changed every year. I managed a new concept and established solid and trustful relations with the parents and the village administration based on a real will to satisfy our main customers, the children. While being the only private kindergarten, the Tsaharoniki is the reference of quality and experience for all Misgav Regional Council.

חינוך ורווחת ילדיכם הם העדיפויות העיקריות שלנו

אנו מקשיבים

Children from 5 of age cannot always explain and understand what is going through them during their very rich day. When they leave their regular morning education framework they still lives with mixed feelings and situations that required to be ravelled ou. Riki and the team is attentive and close to every child so they are able to feel those little ripples that hide a more complex situation. At the Tsaharoniki we educate, communicate and help to find answers. We maintain constant contact with parents and create conditions to discussions, feedback and eventually detect unusual emotional state.

אנו מעבירים ערכים

Before reaching pre-school and school time in their life kids were totally dependent on their parents. As they grow older, other kids and their surroundings exert a greater influence on them and essential values must be passed. Communicate the importance of character, values and personal responsibility will help them to prepare for life. We encourage exemplary behavior and collaboration from older kids happy to lend their hand to younger kids. We give responsibilities and create an environment in which open and honest communication is encouraged. We use every experience as a learning opportunity and we expose your kids to diversity and help to be open-minded to others.

אנחנו יחד

Daily interaction with peers, educators, and other adults that are not part of their family Children is critical for young children social development. Making friends, working together in a group, and learning how to play together in a safe environment encourages sharing and respect for others. Activities are made in a way kids not only enjoy a pleasant afternoon but contribute to a stringer community appartenance that will follow them during their blooming.

יש לנו כיף

Our work environment added to the team ability to have fun with the children is the first reality you will see at the Tsaharoniki. Happier child is more relaxed and build resilience for the teenage years. Our birthday celebrations have become treasured traditions for our kindergarten, special memories. Having fun with your children is part of our job.
